

# QATAR FOUNDATION

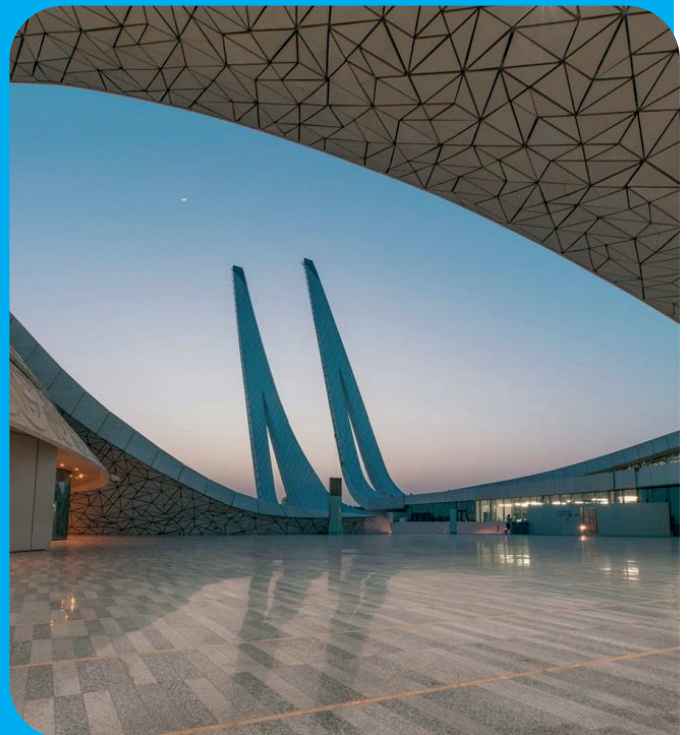

Doha, Qatar

Qatar Foundation (QF) is a non-profit organization made up of more than 50 entities working in Education Development, Research & Development, and Community Development.

Education City, QF's flagship initiative, is a campus that spans more than 12 square kilometres and hosts branch campuses of some of the world's leading educational institutes, a home-grown university, and other research, scholastic, and community centres. Together, these institutes make Education City a unique model of academic and research excellence, pioneering a new approach to multidisciplinary, global education and enabling breakthroughs that benefit Qatar and the rest of the world.

ENGIE Solutions was awarded the Qatar Foundation contract for provision of maintenance support (Group 2) to QF and its entities on a call off basis. ECMFM provides all aspects of services associated with the management, operations and maintenance services on a 24/7/365 coverage.

The facilities covered under (Group 2) are central cooling plants, QNCC, QSTP, ECCH, Tower 44, cricket field, north east and west pumping station, warehouse, Qatar Green Council Building, research & development complex, truck marshalling area, utility tunnel north, and Nasiriya Villa (E, F, G).

## SCOPE

The scope of services includes operations and maintenance of central cooling plants and maintenance and civil (rectification) works for cooling towers, HVAC systems, electrical, mechanical and plumbing systems and installations, and instrumentation. ENGIE Solutions provides additional support in the areas of logistics and handyman support, minor projects and other services.

## DURATION:

2017 - Present
