

# DIFC - CENTRAL PARK

Dubai, UAE

In 2018, ENGIE Solutions added another prestigious project to its portfolio when awarded the Total Facilities Management services contract for Central Park Towers, located in DIFC.

Central Park is a complex of two towers: the Office Tower which is 45 floors and 219.9m tall, and the Residential Tower which is 47 floors and 243m tall.

## SCOPE

ENGIE Solutions provides Total Facilities Management services to Central Park. Our scope of services includes MEP and civil maintenance. ENGIE Solutions is also responsible as a Managing Agent for 43 different services providers including cleaning, security, fire and life safety system services.

## DURATION:

2018 - present
