

TAIBA HOSPITAL

Kuwait

Taiba Hospital is one of the leading hospitals in Kuwait, and its strategy includes promoting health and medical knowledge within the community, supporting its needs and engaging directly with patients. The strategy complements the Hospital's investments in providing the highest standards of medical care in Kuwait, having partnered with world-class medical services providers and top-class practitioners who hold certifications from leading hospitals in Europe, the United States and Canada.

As a global leader in low carbon energy and services, ENGIE Solutions helps Taiba Hospital reach its environmental goals and save energy. ENGIE Solutions' global presence provides access to the most advanced technologies, vast skills and resources as well as significant investments in R&D and sustainable research - all of which makes ENGIE Solutions the perfect partner to enable Taiba Hospital to become exemplary in Kuwait and further afield.

SCOPE

Total integrated facilities management and energy management services. This includes technical, cleaning, and security services, as well as loss prevention, porter/helper and valet parking services, and the management of waste, pest control, landscaping, and laundry.
